

Outperforming Your Expectations

Napoleon's patented EPA Wood Burning Technology... more heat with less fuel

When buying a fireplace or stove, you want more than just good looks and energy savings. You're also interested in design options, durability, safety, environmental concerns and overall heating comfort. You want an insert or stove that will give you the best performance over a lifetime - You deserve a wood burning product by Napoleon.

A combination of stainless steel and 2300°F resistant ceramic fibre protect against deterioration caused by extreme temperatures

- 1 Economical 6" flue on even the largest models, assures you of efficiency and cost saving installations.
- 2 Primary "bottom air feed" assists in cold start ups and to revive a small, dying fire.
- 3 Secondary air tube insulated with ceramic fibre and protected with a stainless steel cover plate ensures complete combustion.
- 4 Wrap around side shields add a delicate balance of elegance and functional practicality helping to disperse heat evenly and reduce clearances to combustibles.
- 5 Large viewing area through an elegantly arched cast iron door.
- 6 High heat ceramic glass provides a safe, unobstructed view of the fire.
- 7 Effective air wash in combination with high temperatures keeps the viewing glass clean.

- 8 Fully refractory lined firebox, similar to a kiln maintains the interior temperatures necessary to achieve low emissions.
- 9 Ash dump with self-closing door is readily accessible. (pedestal & cast iron model)
- 10 Large "king size" functional ash pan (600 cu. inch capacity) with 2 carrying handles lets you conveniently dispose of ashes. (pedestal model)
- 11 Folding ash pan lid allows for clean, no-mess ash removal. (pedestal model)
- 12 Cool room air is circulated around the firebox, heated and returned to the room.
- 13 The single lever burn control regulates primary and secondary air establishing a perfect mix and a clean burn.

Features

Convenient ash pan

Wood storage compartment

Reliable cook top surface

Pot fenders keeps food safely on the surface

1150P Wood Gourmet™ Cook stove

This unique, functional, EPA certified wood stove produces lots of warm, comfortable heat with the added benefit of a reliable cook top surface. Napoleon's Wood Gourmet™ cook stove comes complete with an oversized, cast iron cook top surface featuring an Easy Slide™ design with removable flush hot plates for faster cooking. The functional "Pot Fender" keeps cookware safely on the surface. A convenient, removable ash pan allows for easy, clean disposal of ashes. With up to 55,000 BTU's, high burn output, large firebox capacity and the reliability of having a combined heating and cooking source without the need for electricity, makes this stove a valuable addition to your home, cottage or both!

- Cast iron cook top surface
- Removable hot plates with designated "hot zones"
- Flush top design ensures "easy slide" pan movement without lifting pots or pans
- Functional "pot fenders" keep cookware safely on surface
- Easy access ash pan (with oversized brushed stainless handle)
- Fully lined refractory firebox for long burn times and even, consistent heat
- Convenient wood storage compartment
- Secondary burn tube ensures complete combustion
- Air wash system keeps glass clean
- Air control lever
- Optional painted black webbed arched or arched door available

Model	BTU Heat Output	Firebox Capacity cu ft	Area Heated sq ft	Burn Time (hours)	Log Size (Max)	Emissions (grams per hour)	Flue Diameter		Catalytic Combustor	Mobile Home Approved	Blower Kit Available
							Top	Rear			
1150P	55,000	1.7	1500+	7	18"	4.1	6"	N/A	No	No	Yes

1150P Clearances

Corner	Rear	Sides
6"	10"	12"

If the stove is to be installed on a combustible floor, it must be placed on an approved non-combustible hearth pad, that extends 8" (200mm) beyond the stove sides and back, and 18" (455mm) to the front.

Clearances can be reduced with shielding acceptable to local authorities. Reduced installation must comply with NFPA211 or CAN/CSA-B365
